

FOR IMMEDIATE RELEASE

Enstor Gas Adds Industry Veteran Jennifer Johnson as General Counsel

HOUSTON – March 18, 2024 – Enstor Gas (“Enstor”), the largest privately owned gas storage company in the United States, is pleased to announce that Jennifer Johnson has joined the company as general counsel. Ms. Johnson has over a decade of energy-related legal experience.

Before joining Enstor, Jennifer served as general counsel for Salt Creek Midstream where she managed legal, sustainability, and human resources aspects of the business, including governance and finance matters, sustainability reporting, the acquisition and divestiture of energy assets, commercial contracts, litigation and disputes, and regulatory and compliance related matters. Prior to joining Salt Creek, Ms. Johnson served as vice president, general counsel and corporate secretary of Rosehill Resources, Inc., a publicly traded upstream company with assets in the Permian Basin. She also worked at Noble Energy Inc., where she served as corporate finance counsel for Noble’s upstream and midstream businesses. In addition, Ms. Johnson worked as a corporate and financial services attorney at Willkie Farr & Gallagher LLP and began her private practice career as a corporate associate at Skadden, Arps, Slate, Meagher & Flom LLP.

Immediately after law school, Jennifer served as a law clerk to the Honorable Judge David McKeague of the United States Sixth Circuit Court of Appeals. Ms. Johnson holds a Bachelor of Science degree in nursing from University of Texas Health Science Center – Houston, and she worked as a registered nurse at M.D. Anderson Cancer Center prior to law school. She holds a Juris Doctorate from the University of Texas School of Law.

“Enstor is thrilled to welcome Jennifer on board as general counsel and a key contributing member of our management team,” said Enstor CEO Paul Bieniawski. “We believe the natural gas storage industry is poised to enter a period of high activity with significant growth opportunities on the horizon, and to that end we expect to make good use of Jennifer’s deep oil and gas legal experience and leadership capabilities to help us move Enstor forward.”

Enstor manages and operates natural gas storage facilities in Alabama, Mississippi, Texas and New Mexico. Enstor’s Gulf Coast and southwest U.S. facilities access supply from the largest basins in the U.S. and are strategically located in market areas that serve growing demand from LNG liquefaction, industrial expansions, power generation, and exports to Mexico.

About Enstor Gas

Enstor is the largest privately owned natural gas storage company in the United States. Headquartered in Houston, the company owns and operates six active underground natural gas storage facilities in four states with more than 110 Bcf in working gas capacity. Enstor has approximately 179 miles of transmission pipelines and 39 interconnects to major transmission pipelines. For more information, please visit www.enstorinc.com.
